Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. You can upload any type of file (movies, music, documents, images, zip files and more). Just upload the file you want to share with your friends and we send you a download link to your file. There are no restrictions on the number of times a file can be downloaded. Unfortunately, we can't make that part free. Files can be downloaded from any computer from our high speed servers. File is free to use with no gotchas and no hidden fees. Our service is completely free for everyone. You can give this download link to your friends by mail or instant messenger. You don't need any special software installed to be able to download your files. Alternatively you can choose to share your download links on blogs, forums and social networking sites. Any file in any format can be uploaded and downloaded for free. Keep your files private, or send your download links only to friends or family. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Simply upload your file and share the link. It is also allowed to link to the download page from websites and communities. If only we could, wesurely would! On the other hand, using file can actually save you money. When you use file, you avoid storing the file you're sending in your cloud storage ormail server. So try our free and simple filehosting service now. filehosting provides an easy possibility for you to send large files to your friends. No account orcedit card is required to get started. You decide who you want to share your files with. We have no file size limit. The cost of that data transfer is covered byyour internet service or the data plan on your phone. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chatapps have limits to the size of files that can be transferred within their apps. Using file, you can circumvent those limits without paying to upgra
