The cost of that data transfer is covered by your internet service or the data plan on your phone. So try our free and simple filehosting service now. Alternatively you can choose to share your download links on blogs, forums and social networking sites. Using file, you can circumvent those limits withoutpaying to upgrade your team chat service. You decide who you want to share your files with. Keep your files private, or send your download links only tofriends or family. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. We have no file size limit. filehostingprovides an easy possibility for you to send large files to your friends. Just upload the file you want to share with your friends and we send you a download linkto your file. File is free to use with no gotchas and no hidden fees. Unfortunately, we can't make that part free. This is easy, fast and reliable filehosting! Youdon't need any kind of premium-accounts. Simply upload your file and share the link. There are no restrictions on the number of times a file can be downloaded. Our service is completely free for everyone. Files can be downloaded from any computer from our high speed servers. You can upload any type of file (movies,music, documents, images, zip files and more). Any file in any format can be uploaded and downloaded for free. If only we could, we surely would! On theother hand, using file can actually save you money. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing youmoney in data storage fees. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred betweenyour computer or phone and our servers, then from our servers to your friends device. You can give this download link to your friends by mail or instantmessenger. You don't need any special software installed to be able to download your files. No account or credit card is required to get started. Why pay storagefees for a fil
